WATERPROOF TEST

Open Lock

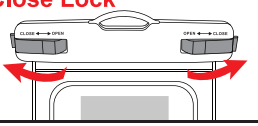

Turn On the two swivel switches.

Insert

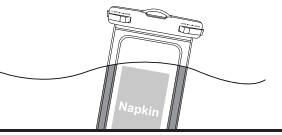

Insert the napkin.

Close Lock

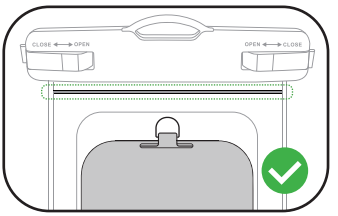

Turn Off the switches.

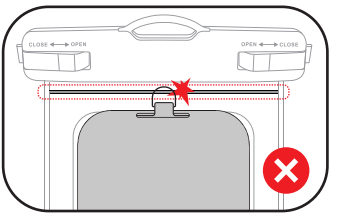

Submerging the pouch under -water for a 30 minutes test.

NOTE: 1.Napkin is not included. 2.Always test before use.

ATTENTION

Before placing your phone in the pouch, remove any lanyards or tether tabs attached to it. Keep the highlighted area clear. Accessories in this area may prevent the pouch from sealing properly.

MAINTENANCE

Please clean up the water stain, and air-dry the pouch after second use. **Do Not** expose under the sun.

BEST TIPS

* When Cell phones touchscreen suffering in hydraulic pressure underwater, please take photos with the volume buttons.
* Touch ID can not function underwater. Wake up cellphone with the power button or use the "Raise to Wake" function: Setting -> Display & Brightness -> Raise to wake -> ON.
